12 out of 13 proposed IHR amendments taken off the 75th WHA Agenda following legal challenge by Dr Zac Cox

May 2022

Dr Zac Cox has successfully challenged Sajid Javid's continued sponsorship of 12 of 13 of the American (Biden) proposed amendments to the International Health Regulations - IHR

What does this mean?

He has prevented a transfer of power to WHO at the 75th WHA which would have affected all 193 member states and would have given the World Health Organization extraordinary powers, and trample on our Constitutional rights- giving away our sovereign rights to an unelected, unaccountable body - heavily financed (and therefore influenced) by the pharmaceutical industry and other 'powerful' industries.

How did he do this?

By issuing a Judicial Review action - and appeal thereof at the Court of Appeal - which resulted in the UK government via their lawyers confirming that 12 of 13 proposed amendments would NOT be on the table at WHA.

Insert from Government legal letter received by Dr Cox on 20th May 2022 when he awaited his Court of Appeal hearing challenging the Secretary of State : Savid Javid:

"By way of factual update to the Court, it should be noted that the only amendment to the IHR being discussed at the upcoming World Health Assembly (22-28 May 2022) is that proposed by the US in relation to Article 59, which would reduce the time period after which future amendments to the IHR would come into force as a matter of international law. "

Since this 1 proposed amendment alone is a reasonable amendment - reducing the period of time for when any amendments would come into force in an emergency situation - there was no realistic challenge to this one clause on its own and no force in a challenge without the 12 other proposed amendments which would have actually given over power to WHO.

of 2nd
June 2023**

Kingfisher Justice wanted to let you know that Zac Cox successfully challenged the proposed amendments - and we applaud and support his tenacity in finding a way to stop the WHO having powers they should NEVER EVER be given.

Thank You so much for Your support it really does mean the World to us.

May the Force be with You Always!
